

Faith Stepping Stones

Every one. Every night. Every home.

Stepping Stones is an innovative program of faith-sharing which allows church leadership to partner with parents at critical developmental stages in their child's life. It provides faith-based parenting education from cradle to graduation through a series of eight short-courses. Each short-course, or Stone, equips parents to nurture both their faith and their children's faith. One important Stepping Stones goal is for family members to share daily highs and lows every night, with each child. Each Stone is celebrated in worship with a special blessing service.
